MEMORANDUM FOR AD/NE

The following is an extract from the Official Diary of DD/I for 15 October 1952:

25X1A9a At the request of Sherman Kent, discussed SIE-5 with [REDACTED] of O/NE and indicated to him that I was satisfied, in view of the existing circumstances, not to request any changes in the paper as presently drafted. An attempt to make changes at this time might reopen on any disputed points. I made it clear, however, that I did not feel that this paper had finally solved the problem of how to express our estimates of Soviet scientific capabilities.
